Advanced clinicians need advanced communication skills, are we really prepared?

Do you want to evaluate your communication skills and learn effective communication techniques for use in a wide variety of professional settings? Are you as effective in a business meeting or project planning meeting as you are in the clinical setting? Do you want to enhance your communication with your peers? If the answer is yes then this workshop is for you

Lesley Armstrong DEVELOPING AND STRENGTHENING COMMUNICATION.

Lesley is a communication and leadership consultant with many years experience in presenting and teaching advanced professional skills to government, corporate and health professionals. These sessions will provide expert advice, professional coaching and reflection, providing you with valuable tools to assist in impact communication within the health care setting.

Matiu Bush DEVELOPING CONFIDENCE IN CLINICAL PHOTOGRAPHY

Clinical photography aids in the communication, documentation, diagnosis, referral and management of various clinical presentations. You are encouraged to bring your digital camera for this practical workshop.
