

NURSE PRACTITIONERS

Helping you access quality health care when and where you need it.

Did you know?

Nurse Practitioners:

- Are highly qualified Registered Nurses with the expertise to diagnose and treat people of all ages with a variety of acute or chronic conditions
- Provide health care in all States and Territories in Australia
- Provide services eligible for rebates through Medicare
- Provide prescriptions and access to the Pharmaceutical Benefits Scheme
- Are registered health care providers with the Australian Health Practitioner Regulation Agency
- Have been working across Australia since the year 2000

Why choose a Nurse Practitioner?

Nurse Practitioners work directly with you and provide comprehensive services including:

- Assessment and diagnosis of your health problems
- Referral for necessary x-ray and blood tests
- Prescriptions of medications
- Referrals to other health practitioners
- Education, counselling and support
